

Anker USB C Hub, PowerExpand 8-in-1 USB C Adapter, with 100W Power Delivery, 4K 60Hz HDMI Port, 10Gbps USB C and 2 USB A Data Ports, Ethernet Port, microSD and SD Card Reader, for MacBook Pro and More Review-2021

[Read Customer Reviews](#)

The Anker Advantage: Join the 55 million+ powered by our leading technology.

Massive Expansion: Equipped with a USB-C Power Delivery input port, a USB-C data port, 2 USB-A data ports, 1 HDMI port, an Ethernet port, and a microSD/SD card reader, giving you an incredible range of functions—all from a single USB-C port.

High-Speed, High-Def: USB-C and USB-A data ports provide file transfer at speeds up to 10 Gbps, while an HDMI port supports media display at resolutions up to 4K@60Hz.

Powerful Pass-Through Charging: Compatible with USB-C Power Delivery to provide high-speed pass-through charging up to 85W.

What You Get: PowerExpand 8-in-1 USB-C PD 10Gbps Data Hub, travel pouch, welcome guide, our worry-free 18-month warranty, and friendly customer service. High-Speed Data Transfer
Transfer movies, music, or your entire photo collection in seconds with 10 Gbps data transfer speeds.

Powerful Pass-Through Charging

The USB-C port supports pass-through charging up to 100W (minus 15W for operation), allowing you to charge up your laptop at high-speed while retaining full function of the hub's other ports.

(Wall charger not included)

Universal SD Card Compatibility

The SD and microSD card slots support virtually all SD card formats for seamless access to photos and other media files.

Lightweight and Portable

At only 0.6 inches thick and weighing less than 4 oz, PowerExpand fits easily into your bag or pocket for effortless portability. Travel pouch included.

Model Number: A8383

PowerExpand 8-in-1 USB-C PD 10Gbps Data Hub

The High-Speed Data Transfer, Pass-Through Charging, and 4K Media Hub

All The Ports You Need

Turn your device's USB-C port into 8 ports, allowing you to transfer data in seconds, stream media in unrivaled clarity, and provide high-speed pass-through charging.

Crystal-Clear Display

Don't waste time switching back and forth between programs or documents. Simply connect to an external monitor via the 4K HDMI port for an easier and more productive experience.

Note: The Adopted Trademarks HDMI, HDMI High-Definition Multimedia Interface, and the HDMI Logo are trademarks or registered trademarks of HDMI Licensing Administrator, Inc. in the United States and other countries.

Power Delivery Compatible

Supports up to 100W (minus 15W for operation) pass-through charging so you can power up a 15" MacBook Pro at full speed—all while accessing the hub's other functions. (Charger not included).

Transfer Files in Seconds

Transfer movies, photos, and music at speeds up to 10 Gbps via the USB-C data port and dual USB-A ports.

Universal SD Card Compatibility

The SD and microSD card slots support virtually all SD card formats for seamless access to photos and other media files.

Compatibility

MacBook Pro (2020 / 2019 / 2018 / 2017 / 2016 / 2015)

MacBook Air (2020 / 2019 / 2018)

iPad Pro (2020 / 2019 / 2018)

XPS (13 inch / 15 inch)

Pixelbook (2017)

Incompatible Devices:

Nintendo Switch

USB SuperDrive

Notes

Media display is only supported via the HDMI port. This hub does not support media display via the USB-C ports, including when using a USB-C to HDMI cable, or USB-C to DisplayPort cable.

1. How can this hub achieve 85W Power Delivery charging?

To get 85W charging, use a USB-C wall charger and a USB-C to C cable that both support 100W PD charging.

2. Does the USB-C Power Delivery port support charging for tablets (including iPad Pro) or phones?

Due to the power input limitations of mobile devices, this hub can not provide pass-through charging to tablets (including iPad Pro) or phones when using the original wall charger that came with your mobile device. To support full-speed charging for iPad Pro, use an adapter that supports at least 15V (45W).

3. Why can't my HDMI resolution reach 4K@60Hz?

The HDMI port supports a variety of resolutions up to 4K@60Hz, including 1080p, 1080i, 720p, and 480p. For 4K@60Hz resolution, please confirm your device supports DP 1.4. Below are some devices that support DP1.4:

MacBook Pro 15" • 2018 / 2019

MacBook Pro 16" • 2019

iPad Pro 2018 / 2019 / 2020 (Only iPad Pros with iPadOS are compatible)

HP EliteBook 1050 G1

4. Does this hub get hot?

When the hub is fully loaded, it may reach a surface temperature of around 149°F. However, this is normal for products of this kind.
