What can I use a humidifier for?

Humidity acts as a moisturizing agent that can relieve dryness. For this reason, humidifiers are often used for:

Relieving dry skin, Promoting easier breath, Improving sleep, Keeping plants or pets happy

What water should I add in my humidifier?

Distilled or demineralized water are preferred. They have lower mineral content and can reduce white dusts when running.

How do I clean my humidifier?

1. Unplug and disassemble your humidifier.

2. Fill the tank with water as you normally would, but add 2 tablespoons distilled white vinegar, too. Let this mixture sit in the tank for 30 minutes.

3. Empty the humidifier, and use the included cleaning brush and cloth to clean any areas with extra build-up.

4. Rinse all the parts and let them air dry before its next use.

Moisturize Your Skin

In winter, cold air holds less moisture. Homasy Air Humidifier offers an effective solution to counteract the effects of dry harsh winter air by moisture to any room. Soothe dry skin with added moisture so hands and lips are no longer dry.

Sleep Better

Adding humidity to the environment can help reduce disruption, which means extra sleep for the whole family. Enjoy a better night's sleep with soothing fragrances.

Breathe Easier

Keeping indoor air at an RH level of 40-60% will help you stay Comfortable and happy. And Homasy Humidifiers can help achieve and maintain this humidity level. Comfortable humidity helps purify the air, which helps you breathe better and sleep more comfortably.

Beneficial for Indoor Plants

When your plants are faced with dry air, you will see curled leaves and dry leaf tips. Flower buds turn brown and fall off. Plants thrive in high levels of humidity. And using a Homasy Plant Humidifier helps return moisture to the air promoting plant growth.

Powerful Humidifier

Homasy 2.2L humidifier is compact but mighty, it helps to increase moisture level in the air no matter where you are. Adjustable 360° mist nozzle makes it easy to send the mist in any direction.

Engineered with optimized air duct, the mist height of Homasy Air Vaporizer reaches 3.3ft (1m), never wet your floor or desk.

User-friendly

Unlike button control, Homasy's classic dial knob makes it much more precise and effortless to adjust mist output volume. Just turn the knob to adjust the outflow from 60~180ml/h. Control the mist output in just 3 seconds, which is friendly even for kids or the elder.

Quiet Operation

Homasy baby cool mist humidifier runs at 28dB, quieter than whispers, perfect for light sleepers, especially babies. You might forget you are using a humidifier. That's why the auto shut-off feature comes in handy when the water level is low or the tank is removed in case you actually do

forget.

#### 24 Hours Run Time

The higher the capacity, the longer the humidifier can run without requiring a reservoir refill. Homasy cool mist humidifier runs up to 24 hours on lowest setting, bring you moisturized and fresh air all day. So you don't have to worry about running it through the night.
