Our story

How we got our start?

Hi, I'm Diana, founder of the Natemia. I formed Natemia in 2016 shortly after the birth of my second daughter. From day one, our goal has been to bring high-quality, natural, and most importantly affordable baby essentials to parents.

What makes our product unique?

As a mom of two little girls, I know how overwhelming it can be to navigate the sea of baby products online. You want to buy baby essentials that are natural, safe, and built to last, but these qualities can be hard to find all in one place.

Why we love what we do?

At Natemia, we want to help you to spend less time searching and more time enjoying life with your loved ones. That's why we hand-pick and carefully test each product before adding it to our line of natural baby essentials.
