[Read Customer Reviews](#)

Neoprene and Rubber

Imported

Rubber sole

Shaft measures approximately 7" from arch

Boot opening measures approximately 11" around

Strong, supportive construction | Our boots are made to be strong and supportive! The handmade vulcanized construction prevents weak spots on our boots, so no water is sneaking in! The hard rubber inner-sole board and steel shank provide support

Weather-proof | Our neoprene boot is not one to pass over! Made with a 5mm full neoprene insulation and upper, this boot is perfect to use in a variety of weather conditions! Rain, snow, or SHINE, this boot will keep your child dry and warm!
